

# Retrofit

Is your machine no longer state of the art? Are you worried that certain spare parts will take a long time to procure in the event of a fault and that your production could come to a standstill as a result?

With our retrofit packages, we bring your machine up to the latest state of the art, ensuring smooth production, increased efficiency and maximum productivity.

## Retrofit packages from Rychiger

- ✓ Individual analysis by our retrofit specialists
- ✓ Tailor-made retrofit concept
- ✓ Well equipped for the future

# On the pulse of time.

Your benefits with the retrofit concepts from Rychiger

## Improved performance ✓

By using the latest components and technologies, you can significantly improve the performance of your filling machine.

## Lower operating costs ✓

Modern machines are more energy-efficient and easier to maintain, which saves you money in the long term.

## Increased reliability ✓

With a retrofit package, you minimize the risk of breakdowns and downtimes.

## Extended service life ✓

By updating your machine, you can significantly extend its service life.

## Future-proof ✓

You are equipped for the future and can master new requirements and challenges without any problems.

## Would you like to find out more?

Contact us today for an individual consultation.  
Our experts will be happy to create a customized retrofit concept for you.
